

Outdoor Exercises to Highlight Graduation Week Events

Memorial Stadium will set the scene for the first outdoor summer commencement in the history of the Northwest Missouri State college the night of July 30 at 8:00 p.m.

Maryville High school's band, directed by A. N. McCrac, will play the processional, "Largo," by Handel, the recessional, and a short interlude of musical numbers will be presented before the processional. St. Joseph Man to Speak

Guest speaker for the exercises will be G. M. Coleman, assistant superintendent in charge of instruction, St. Joseph.

Mr. Coleman received his bachelor of arts degree in history from the Universities of Iowa, Arizona, and Kansas City. Mr. Coleman was both principal and superintendent at Amity, Mo. In '36, he went to St. Joseph where he was chairman of the social studies department at Benton high school.

He has been principal at the John J. Pershing, the Eugene Field, and the Charles A. Lindbergh schools there. In 1942 he was commissioned a lieutenant j. g. in the Navy. At present he holds a commission as a lieutenant-commander in the United States Naval Reserve.

Mr. Coleman served as assistant principal of the Benton school during the term of 1946-47. He is vice-president of the St. Joseph Safety Council, past president of the Up-

G. M. Coleman

town Lion's Club, and is featured in an edition of "Who's Who in American Education."

Boys to Present Colors

Presentation of the colors by Robert Leffingwell and Terry Bullock will immediately precede the processional. The academic procession will be composed of the junior marshal; candidates for degrees; board of regents; Dr. W. A. Brandenburg, Dean of Faculty; Mr. Coleman; and Dr. J. W. Jones, president of the College.

Dr. J. Gordon Strong, chairman of the physical science department, will give the invocation. Dr. Brandenburg will present the candidates for degrees and Dr. Jones will confer the degrees.

69 to Receive Degrees

Candidates for degrees are as follows: Bachelor of Science—Ruth R. Donovan, Greenville, S. C.; English; Arthur J. Meers, St. Joseph, business.

Bachelor of Science in Education, Secondary: Robert Andrews, Clearmont, English and speech; Harold Bailey, Braddyville, business; Joan Cartwright, Maysville, English; Bob Dillon, Atchison, Kans., physical education; Franklin Elmore, Elmo, industrial arts; Donald Foster, Spickard, industrial arts; Marilyn Gilliland, Ludlow, vocational home

economics; Lois Kemper, Tarkio, physical education; George Kling, Barnard, physical education; Alverdo F. Kysar, Hopkins, industrial arts; Ivan Magoon, St. Joseph, English; Wanda Mantzey, Avalon, business; Donald McKown, Bigelow, physics; Richard Merkle, Coln, mathematics; Irene Schmitz, Parnell, vocational home economics; Edna Hunter, Allendale, business. Many to Get Elementary Degree.

Bachelor of Science in Education, Elementary: Helen Adams, St. Joseph; Dorothea Armstrong, Logan, Ia.; Margaret Babcock, St. Joseph; Corolca Beaumont, St. Joseph; Juanita Bowman, Albany; Roberta Brown, Elmo; Genevieve Campbell, Bolckow.

Mathelle Carlson, Ogden, Ia.; Rosa Lea Elvens, Gilman City; Ruby Elsey, Mercer; Ruby Flint, Mt. Moriah; Mary Foster, St. Joseph; Imo Jean Gantt, Pattonsburg; Beverly Goodrich, Cainsville; Pauline Harvey, Savannah; Vodra Hawkins, Gower; Ilda Hower, Bolckow; Lucille Hunzinger, Oregon, Shirley Johnson, St. Joseph; Helen Kelim, Stewartville.

Lela Kish, Riverton, Ia., Elizabeth Kyle, St. Joseph; Carroll Lamphier, Mill Grove; Dora Mae Lock, Ames, Ia.; Opal Long, Maryville; Artimas Lovan, Willow

Springs; Dorothy Maffitt, Richmond; Martha Martin, Craig; Anna McMullin, St. Joseph; Eldora Narans, Horton, Kans.; Betty Jean Newman, Gentry; Irene Offutt, Stewartville; Goldie Phillips, Stanberry; Barbara Pitman, Maysville; Marguerite Pittsenbarger, Hopkins; Marjorie Rogers, Maryville.

Charlene Sauceman, Kansas City; Blanche Schmidt, Lexington; Patricia Schulte, Maryville; Phyllis Schweizer, Amazonia; Mary Singer, Dearborn; Frankie Spaulding, St. Joseph; Kathleen Strube, St. Joseph; Adella Waggoner, Forest City; Crystal Williamson, Blanchard, Ia.; Alta Wilson, Albany; Eva Lee Young, Plattsburg.

Senior Activities Scheduled

At 9:30 p.m. next Tuesday, a residence hall party for graduates will be held. Activities on commencement day, will include a senior breakfast at 8:00 a.m. in the Union dining room, and a reception at the College Residence by Dr. and Mrs. Jones from 4:00 to 5:30 p.m.

In case of rain the commencement program will be held in the auditorium, according to a report from the commencement sponsors, Mrs. John Mauzey and Dr. John Harr.

First-Grade Pupils Create Animal Display Museum

By Leona Shell Hall

"Come on," said little Ellen Sue Findley. "I'll show you everything." This was the immediate response of the first grade girl at the Horace Mann Laboratory School at Maryville, when her teacher, Miss Atwell Smith, asked her to be hostess to the visitor to their museum. Ellen took her visitor by the hand and showed her every stone, animal, and relic in their interesting museum.

This museum the children have helped to make with orange crate shelves, tables, and bulletin boards. Their collection has much variety, and they have helped to collect the articles and arrange them. They have a temporary collection of birds and animals, an owl, a skunk, a groundhog, an opossum, a starling, and a duck. Mrs. Frankie Spaulding, who commutes daily from St. Joseph, brought the stuffed animals from the museum here.

Had Night Bird

"We must wash our hands every time we touch these," Ellen told the visitor, but she didn't hesitate to stroke the owl in passing. This brought an immediate warning in the same vein from Billy Peterson, who had not heard her earlier remark. For a day they had a live screech owl that they turned loose in the museum.

"We had an owl. He could not see well in the light. He bumped his head." Ellen Sue read to the visitor from a large poster hanging near the owl.

Have Live Animals

A pair of deer antlers, some sections of walrus tusk, and several walrus teeth were called to the guest's attention. When the visitor confused the teeth and tusks, however, she was immediately told the difference and reminded that a walrus has only two large tusks. A real ostrich egg and two coconuts, an unhusked and a husked one, are prized possessions in the small museum.

Stuffed animals are not the only ones in their museum. They also have a live animal department. This group consists of several varieties of snails, some goldfish, two small crayfish, and a turtle.

Hamsters Amuse Class

"He is zero years old," the small hostess informed her guest about the turtle.

"How do you know?" the guest asked.

"Because he has no rings on his back," she answered in a tone that plainly indicated her surprise at such ignorance.

(Continued on Page Four)

'Hot Weather Meals' Topic of Special Class

For the purpose of helping busy homemakers plan adequate, nourishing meals during the hot summer months, with a minimum of work, a study group of adult homemakers was organized under the direction of Miss Mabel Cook, teacher trainer of home economics at the college.

Centered around the theme "Hot Weather Meals," the lesson series of classes were presented three times.

The first lesson, "Jiffy Meals," was presented Thursday night, July 1, by Marilyn Gilliland and Patty Neff. The next two meetings were held July 8 and July 15 when the topics for discussion were "Familiar Foods in New Ways" and "Summertime Foods and Party Refreshments," respectively.

Leaders for the July 8 "get-together" were Carolyn Risser and Rita Hunter. Lucille Dinwiddie and Irene Schmitz had charge of the last meeting.

Advisory council members who helped plan the series of lessons are Mrs. John Russell, Mrs. Howard Davenport, and Mrs. Margaret Bodle.

There was no enrollment fee and everyone interested was invited to attend the home economics sponsored classes.

Examination Schedule

Final examinations for the summer session will be held on Wednesday, Thursday, and Friday, July 28-30, inclusive, according to the following schedule:

Classes meeting at:

7:30	Wed.	7:30-9:30
8:30	Thurs.	7:30-9:30
9:30	Fri.	7:30-9:30
10:30	Wed.	9:30-11:30
12:30	Thurs.	9:30-11:30
1:30	Fri.	9:30-11:30
2:30	Wed.	1:30-3:30

Staff Survives Heat; Seventeen Persons Helped In Dual Purpose Speech Course

With this, our last paper of the summer session, the editors wish to say "thanks" to all you faithful readers.

Thanks for all the news "tips," the extra reporting, your cooperative spirit, and the way you have received our publication.

Although our edition has certainly not been perfect, we feel that through it we have made an attempt to unite our students closer to NWMSC.

We sincerely hope what we have paved a new way—a way which will eventually lead to a bigger and better summer college newspaper.

RUTH BUSBY,

BOB ANDREWS, Editors

Blanche Schmidt Takes European Teaching Post

Mrs. Blanche Schmidt of Lexington will leave shortly after August 1 for Bremerhaven, Germany where she will receive orientation and instructions for teaching in the U. S. Service schools in Europe.

Although the exact location of her teaching assignment will not be known until after her arrival in Germany, Mrs. Schmidt has been officially notified that she will be placed somewhere in France.

Mrs. Schmidt, who has taught in the rural schools in the vicinity of Maryville for several years, will receive her degree in elementary education this summer.

Music Recital to Be Given Tomorrow Night

Tomorrow night at 8:15 p.m., a student recital will be presented under the direction of Miss Ruth Miller, music faculty member.

Those taking part will be Myrna Falk, organ; Anna Catherine Roberts, Mary Lu Valk, Meredith Nyström, and Mrs. Ardelle Clouse, piano; Mrs. Maxine Goff, soprano; Geraldine Sickles, mezzo-soprano; and Norman Pearson, baritone.

Miss Valk will play two movements of Mendelssohn's G Minor Concerto for piano and orchestra. Orchestral parts will be played on the organ by Miss Miller.

Piano accompanists will be Myra Falk and Georgia Harnes.

COURSE HELPS OTHERS... Helen Kelim and Kathleen Strube, front, are shown helping one child in the speech correction laboratory. Behind them is another practice teacher, Mary Foster, and her pupil.

By Bill Ray

As offered on this campus, the speech correction course serves a two-fold purpose, one of which is to train students in the art of correcting faulty speech, and the other is to correct specific speech difficulties.

The first correction mentioned in under the direction of Miss Jean Kinnie. Here the students learn of various types of speech difficulties, how to diagnose them, and what to do to correct them.

There are ten different and distinct types of speech problems. The most common one being articulatory trouble, which is the inability to produce certain sounds either singly or in conjunction with other letters. One of the most unusual types is Aphasia which is the loss or impairment of the power to use or understand speech.

So far we have learned the various types of speech difficulties and how to recognize them, but probably the biggest problem remains. What must be done to correct them? This is also taught in the class room, but far more important, it is practiced in the laboratory, which brings us to the second purpose of the class in speech correction.

This program is carried out in the speech correction laboratory, which is also directed by Miss Kinnie. Besides providing actual ex-

perience for the student, the laboratory renders a valuable service for the Northwest Missouri area, because it is the only laboratory of its kind within this territory.

This summer there are seventeen persons who visit the laboratory regularly for help in overcoming their particular speech difficulty. There is not any minimum or maximum age requirement for the laboratory. Those receiving help this summer vary all the way from four years of age up to adults. They receive an abundance of individual attention for there are two teachers assigned to each of the children, and individual help is given to each adult.

Each person who comes to the laboratory is assured not only of understanding, but that his problem will receive the greatest amount of help that science and medicine have made available. For his benefit, hearing tests are given and

NOTICE

July 21—Kenneth Bird, music faculty member, presents final assembly at 10:30 a.m.

July 22—Music recital to be given at 8:00 p.m. in the college auditorium.

July 27—Residence Hall party for seniors.

July 27, 29—Final Exams.

July 30—Senior Breakfast at 8:00 a.m. . . Reception to be given at Pres. and Mrs. Jones' home for graduates . . . Graduation exercises begin at 8:00 p.m. in Memorial Stadium.

August 5, 6, 7—Kappa Omicron Phi Conference.

August 30—Football camp begins.

September 7, 9—Freshman Orientation.

September 8—Freshman Registration.

September 9—Upper classmen register.

September 10—Classwork begins at 8:00 a.m.

Writers Club Meets

Members of Writers Club met at the home of Miss Mattie M. Dykes last Wednesday.

All persons interested in taking evening and Saturday classes during the first semester of the 1954-55 school year, please fill out the "request forms" in Mr. Brown's office, Room 208, as soon as possible.

All persons interested in the organization of extension classes should leave requests in Mr. Brown's office before the close of the summer session.

Last Semester Grad Has Attendance Record

Mrs. Orville Hall, who received her bachelor's degree in secondary education last semester, has a record that she thinks no one can equal.

She has attended college two full terms and six summer sessions and has never missed an assembly program. She said that she has enjoyed most of them and recommends that everyone attend them.

Mrs. Hall has been teaching at Hopkins. She will teach in Blue Springs, Mo., this year, where she will head the English department of the high school.

"PERFECT FIT" . . . These three senior officers, President Bob Andrews, right, and Vice-President Marcella Schmitz, left, help Mrs. Alta Wilson, treasurer, model one of her favorite outfits, her cap and gown.

Campus Extra . . . Dr. Turner Writes Book on Politics

Drama takes the spotlight this week at both SWMSC AND NEMSC. The Southwest Standard reports that the College Theater will present "Merry Wives of Windsor" complete with typical Elizabethan language, architecture, and costumes. "The Silver Cord" has been chosen for summer production of the Little Theater at Kirksville.

The Teachers College Index announced a shift in editors last week with M. E. Clippinger, June editor, and Elizabeth Simpson, co-editor, switching positions for July.

BULLETIN

There will be no "half-baked" teachers as products of this institution this summer. The weather has taken care of this. They are all well done.

Sam Bodine's column, "Tribal Echoes," in the Capaha Arrow recently approached the political arena with the announcement that a former Cape student was a candidate for office.

The Ball State News carried an account of a tour of southern Indiana by a group of students in the mid-June issue. The three day tour was outlined for both entertainment and education.

Campus police were called to quell a disturbance when co-eds at Oregon State College rebelled at an edict forbidding sun-bathing on the dormitory roof. Editor of the Barometer, campus paper, reprimanded the rioters.

. . . Town Notes . . .

Is Queen Candidate

Patty Neff was a candidate for Queen of the Burlington Junction Rodeo last week. Patty, a junior at NWMSC, was sponsored by the Horsemanship Club of Nodaway County.

Directs Story Hour

Carolyn Curfman, a sophomore from Maryville, is in charge of the story hour at the Carnegie Library this summer. The hour is held each Wednesday from 10 to 11 under Carolyn's supervision.

Visits Missourian Office

Joyce Osburn, Skidmore, visited in the Northwest Missourian office recently upon her return from St. Joseph where she has been employed the past year. Joyce was a member of the Missourian staff in 1952-53.

'Ironing is Problem, Too'

As Bob Andrews was casually heard to remark one day, "I sure want to get all my sports shirts worn once this summer!"

When asked how many he had "for heaven's sake," Bob replied nonchalantly, "Oh, 115."

Dr. Henry A. Turner, King City, Northwest Missouri State college graduate of 1939, has edited a book, entitled "Politics in the United States."

This book will appear next January and will be published by McGraw-Hill Book company. It will be one of a series of over 20 volumes comprising a series in political science, which is considered by many authorities as the leading book series in the field.

Articles collected by Dr. Turner for the volume include those by government officials, labor organization leaders, farm organizations leaders and businessmen, political writers, and others.

Some of the articles have been identified by Dr. Turner directly out of legislative investigation committee reports and other party and government documents. The book is divided into four parts: Introduction, public opinion and the political process, pressure groups, and the party system.

Dr. Turner and his wife, the former Mary Margaret Tilton, Grant City, are now residing in Santa Barbara, Calif.

1950 College Grad To Independence

Justyn L. Graham, Northwest Missouri State College graduate of 1950, has accepted a position as assistant principal at Independence, Mo., for this coming school term.

Mrs. Graham, the former Nadine Royston, Jameson, Mo., will also teach in the same school system. This past year they have been teaching at Atchison, Kas., and are now attending the University of Colorado, Boulder, for the summer term.

Mr. Graham's mother, Mrs. Avis Graham, is supervising teacher of the sixth grade at Horace Mann Laboratory school.

Sherman Is Head Coach

Bill Sherman, '51 grad, has been made head football coach at a high school in Roseville, Mich. He will be assisted by Morris Wilson, Mound City, who is also a '51 alumnus.

Sherman has been at Roseville the past year after serving in the armed forces. His mother, Mrs. Faye Sherman, is secretary to the Dean of the Faculty.

Wilson has been coaching at Hannibal the past year. His home is in Mound City.

Road Work Begins

Preparatory to laying a new mat of blacktop, grading has recently been done on the college roads. Work is being done by the St. Joseph Oil and Fuel Company.

Patronize Missourian Advertisers

Record Number Of Ministers Attend School

In these days of rising standards in education, it isn't only the teachers that are working on degrees. The Northwest Missouri State college includes among its summer enrollment, eleven ministers, eight of which are Methodists.

William Andre, Methodist pastor of Grand River and Hopeville, Ia., is working on a bachelor of arts degree in music and history.

Preaching at the Grace Baptist church at Corning, Ia., and the Morton Mills rural church while he attends college keeps Herbert Anderson busy. Mr. Anderson is an outstanding student and was one of the members of the forensic team this past winter.

Elmer Evans, formerly of New Hampton, is residing at Pickering and is the minister for the Pickering and Wilcox Methodist churches. This past spring semester his son Daniel, who is also a minister, attended school here with his father.

Former assistant pastor at the Maryville Methodist church, Harold Miller, and his wife are both attending college this semester. Mr. Miller has a B. A. and a B. D. degree from Southern Methodist University at Dallas, Tex. He says he is just "brushing up on his typing," while Mrs. Miller is working on a degree in elementary education. Mr. Miller is pastor at the Union Star and Harmony churches.

John Huntington, who is taking three summer classes, is the pastor of the Christian church at Blockton, Ia. The entire family of Charles Vinzant, the Methodist minister at Parnell, is attending school this summer. Mr. and Mrs. Vinzant are taking college courses and their two daughters are studying at the Horace Mann Laboratory school.

Kenneth Miller, who is the Ravenwood Methodist church pastor, is working on a degree in business. He obtained a B. S. degree in education last semester with a double major in elementary and secondary music. He is accompanied to school by his two daughters who attend the Horace Mann Laboratory school each morning.

Studying for a degree in secondary education with industrial arts as his major and speech as a minor is the goal of Clyde Hulet. Mr. Hulet preaches at the Clearmont Methodist church. Dale Elmore is a minister at the Elmo Methodist church. He is also studying for a degree in secondary education, with a major in industrial arts.

A former pastor of the Evangelical United Brethren church at Vassar, Kas., A. J. Mattill is studying French this summer to help in his graduate work in biblical studies which he will take at Vanderbilt University, Nashville, this fall. Mr. Mattill already has a B. A. degree from the University of Chicago and a B. D. degree from the Evangelical Theological Seminary at Naperville, Ill.

Hugo Rolens, the Burlington Junction Methodist minister, is studying for a 60 hour certificate. "A degree seems a life time away," said this man, whose main interest is history.

COLLEGE HAS PAINTING DONE BY THE LATE SANDZEN

With the death recently of Birger Sandzen, head of the school of art at Bethany College, Lindsborg, Kas., it is brought to the attention of the readers that the Northwest Missouri State college is privileged to have in its midst one of his paintings.

This particular painting is called "Hidden Valley," and may be found in the humanities room. The mural was presented to the college by the class of 1927, according to Miss Olive DeLuce, chairman of the fine arts department.

Sandzen, who was born in Sweden in 1871, is the author of the book, "With Brush and Pencil." Some of his works appear in the British Museum and the Gallery of Art at Yale University.

THE STROLLER

After this trip around the campus the Stroller can put away his clipboard and crawl under some tree to sleep away the month of August with occasional interruptions to watch the frogs in College Pond.

Hot weather, picnics, and cold drinks always seem to go together as Pat Sheppard, Velda Walker, and Bob Skalth can testify after working the pop concession at the Intermediate Picnic.

One group of summer picnickers finished their lunch in the Bearcat Den the next day. Someone over-estimated the appetites—seven chickens were just too many for fourteen people.

From picnics to parties is but a short step. And if one can stand to dance all night, he's bound to have a good time. With Sally Bolin and Jewell Robinson rating higher than Liberace, why not put them to work pounding the ivories some night?

Jim Gardner earned the title of "Sad Eyes" after he dropped a very precious possession the other night. And no one in the crowd offered a shoulder to weep on.

Some students are getting wanderlust. The week after Rita Hunter announced she was going to Alaska, Ann McMullin began talking about teaching in either Europe or Japan and now she is busily ferreting out all the information.

The Stroller won't see a thing you're doing after today until September. See you then.

THE COLLEGE OATH

"We will never bring disgrace to this, our College, by any act of cowardice or dishonesty. We will fight for the ideals and sacred things of the College. We will revere and obey the College laws and do our best to incite a like respect and reverence in others. We will transmit this College to those who come after us, greater, better, and more beautiful than it was transmitted to us."

Loan Fund Boosted By Benefit Ball Game

\$107 was collected Wednesday, July 7, at the benefit baseball game at Beal Park for the student loan fund at NWMSC.

Two Maryville teams, the Merchants and the Redlegs, played a thrilling game before a large crowd. The Merchants came out on top 2-1. The Maryville Jaycees operated a concession stand, the profits of which were donated to the loan fund.

Dr. Sterling Surrey is chairman of the student loan fund, while Frank Poble, Craig, is student chairman of the fund. Every year this fund helps many students to borrow money to further their education.

Seventeen Persons Helped In Dual Purpose Course

(Continued from Page One) many cases are referred for medical and psychological examinations. The help each person receives is based upon the findings shown in the reports.

Many times the laboratory is referred to as a clinic, but as used in this particular sense the word is somewhat misleading. Generally speaking, a clinic is thought of as a place where formality, uniformed attendants, and medicinal odors prevail, but such is not the case with this "clinic."

Its very atmosphere is filled with informality, friendliness, and enthusiasm. Nor is it confined within four walls. It's as large as the campus, and perhaps if the occasion necessitated, it would extend even further. After all, isn't it much easier to learn to pronounce some letter or word correctly under the shade of a large maple tree than it would be under a hundred watt bulb sitting on a maple seat?

This is the first time in several years that a laboratory has been held in connection with the speech correction course. That it is a popular course can best be attested to by pointing out the fact that 25 students are taking the course this summer as an elective.

That the course fills a very definite need can best be shown by those who have been helped to overcome a speech defect, and by the number of teachers for this area who have reported the need for speech correction in their own schools.

Possibly in time each school might have one member of the faculty trained in this very necessary skill, but until that time, it is hoped that as many as possible will avail themselves of this service made possible through the efforts of Northwest Missouri State College.

Sigmas Hold Summer Picnic

Members of the Sigma Sigma Sigma sorority held a summer picnic at the Lake of Three Fires, Bedford, last Sunday.

Jo Ann Meek, Ruthie Tebow, and Marym Croy planned the picnic lunch and the afternoon's entertainment.

Elementary Teachers Relax at Picnic

OUTDOOR FOOD, FUN . . . Elementary majors, shown above, enjoy themselves at the annual Intermediate picnic at the College park. In the above picture, Miss Mary Keith, supervising teacher of the Elementary grades, is busy helping make one of the major social events of the summer a success. Miss Keith, who was in charge of the picnic, was presented a necklace from the group of elementary majors.

Tau Kappa Epsilon Has Social at Krug Park

Thirty members and guests of the Tau Kappa Epsilon fraternity held a summer social in Krug Park in St. Joseph, Sunday, July 11.

The afternoon's entertainment consisted of a wiener roast and a discussion of fraternity plans for the coming school year. President J. D. Hammond was in charge of the afternoon's events.

Art Buckingham was the chairman of the planning committee.

Former Instructor to Athens

Miss Ann Arnold, supervising English teacher at Horace Mann high school several years ago, visited at the college recently.

Miss Arnold, who has been teaching at the state college at Bemidji, Minn., was enroute to Athens, Greece, where she will teach English in a high school in a suburb of Athens.

Is Returning to States

Harry N. Osborne, who last attended the College in the fall of 1952, is returning from eighteen months service in Newfoundland. Harry writes that he expects to be in the mid-west sometime in July.

Final Assembly Will Feature Kenneth R. Bird

Kenneth E. Bird, member of the music department, Northwest Missouri State college, will present a piano recital as the final assembly program at the college at 10:30 o'clock this morning in the auditorium.

This will be Bird's last major performance as he has resigned from the College and will go to Indiana University to work on his doctorate. In addition to his work at the college, Bird has been organist at the First Christian Church.

Wednesday's program will be as follows: "Sonata in F Major," by Mozart; "Etude in E Major" and "Scherzo in B Minor" by Chopin; "Fugue in G Minor" by Bach-Samartoff; "Toccata," Poulenc; "March of the Wooden Soldiers," Goossens; "Toccata," Khachaturian.

Bird received his master's degree from the University of Indiana, and his bachelor's from the American Conservatory of Music in Chicago.

Visits Campus

Former student Bob Connelly, of St. Joseph visited on the Campus this week.

Grad Review . . .

Grads 'Tie Knot'

Miss Mary Bauman will be wed August 4 to W. D. George from Tarkio. Mary is a grad of '53 and lives at Savannah.

Miss Charlotte Turner and Lieut. (j.g.) Mahlon Hunter Hewitt, both graduates of '51, were married June 26 at the Christian Church in Weston, Mo. The bride taught school last year at Belton, Mo. The couple will reside at Norfolk, Va., where he is stationed aboard the USS Iowa.

B. Robert Ross, '52, was married to Miss Rose Mills on June 20. He did post-graduate work at Iowa University. He is now employed at Iowa City, where they will reside after a wedding trip to Pensacola, Fla., and New Orleans.

Completes Work at Drake

Clarence Godbey, Farragut, Ia., completed work on his master of music education degree this spring at Drake University and was graduated June 7. Mr. Godbey, music instructor in the Farragut schools, was a member of the Class of 1951.

Does Theology Work

Ben Mock, 1953 graduate, is now doing graduate work in theology at Southern Methodist University, Dallas, Texas.

He is in charge of the Forestburg-Rosston circuit about 70 miles northwest of Dallas.

Mock received his bachelor of arts degree in English here. He is formerly from New Hampton, Mo.

Research Assistant Visits

Ardra Cornelius Criss, St. Joseph, who received her bachelor's degree in education in art and Spanish in 1951 visited the college Friday, July 9.

She is research assistant to Dr. John Goffman, department of biological physics in the Donner Laboratory, University of California, Berkeley.

Mrs. Criss had a painting exhibited in Berkeley this spring.

Unusual Trees Dot Campus Landscape

Few people realize that 90 to 95 varieties of trees are growing on the Northwest Missouri State College campus. Fifteen of these trees are evergreen, the rest are deciduous varieties.

Just across the walk from the Golden Raintree is the Chinese Scholar-tree. This tree blooms in August and is related to the legume family. Its creamy-white blossoms have been a familiar campus sight for the past three years.

Another odd variety of trees is the Ginkgo or maidenhair tree. This tree, according to the Yearbook of Agriculture for 1949, "is a living fossil from China related to conifers and the sole survivor of its family, not found wild but long perpetuated in cultivation in China and Japan around temples."

Anyone wishing to locate this tree can identify it by the fan-shaped leaves. Two of these trees are just west of the walk leading to Horace Mann school and two are east of the walk at the back entrance of the Administration Building.

The gnarled gray-foliated tree just across from the library is an interesting contrast to the dark green of the evergreens. This rather ragged-looking tree is the Russian Olive tree and is native to southern Russia. Another Russian Olive tree grows along the walk leading to the Home Management House.

Other trees growing on the campus that are interesting and comparatively uncommon here are the Yellow-wood trees from the Pacific coast of the United States, the two varieties of chestnut trees—the Horse Chestnut and the true American Chestnut—and the Ball Cypress. The cypress trees are growing in the area to the south of the College gymnasium.

Random Shots . . . August 31 to Mark Opening Grid Practice

The Merchants 2-1 conquest of the Redlegs in the Loan Fund benefit game featured the pitching of ex-Bearcat Jim Tanner . . . and Freshman Marvin Black . . . Other Bearcats in the fray included Frank Davis, Bill Baldwin, and Jim Moore among others . . .

Football will return to the spotlight, August 30, when the annual football encampment gets underway . . . The 'Cats' first opponent, Nebraska Wesleyan, has already begun advance publicity . . . First press release was received a week ago . . .

A revamped intramural program will begin functioning on the campus this fall . . . The old eight team league based on the students' residences will be discontinued . . . One hundred per cent participation is the goal of the program . . .

July's torrid temperatures have resulted in greater use of the College pool . . . "To beat heat, try a dip today" . . .

Tennis matches have moved from the afternoon to the early evening . . . A doubles and a singles at six o'clock the other evening drew several on-lookers . . . Watching is never as hot as playing . . .

First Grade Pupils Create Animal Display Museum

(Continued from Page One)
The museum contains a cage of hamsters that intrigues the children. They never fail to be amused by watching the little animals fill their cheek pouches with food. The cage contains a small rotating wheel.

Chipmunk Found on Campus

For two days a baby chipmunk that had been captured on the campus, was an attraction in the museum. When it became apparent that he was not thriving, he was turned loose. "He wasn't happy," the small blond stated sadly, "so we put him out in the grass."

"We had a mother bat one day," put in Dickie Hotchkiss. "The lady in the second grade brought it to us. The mother bat had four babies hanging on her wings."

Everywhere are large lettered stories about the museum objects and the events that have happened. These the children will read without urging and take a great deal of pride in their discoveries of facts and in their skill of reading.

23 Children Enrolled

Walking to the door with the guest, the visitor was graciously told, "We are glad you came to visit us. Will you please come again?"

The 23 children in the room are Candy Appleby, Dale Ausherman, Bobby Bosch, David Cook, Joe Cornelson, Jimmy Hargrave, Shirley Hooper, Dickie Hotchkiss, Harold Hull, Cheryl Job, Danny John, Suzette Knittel, Donnie Lorange, Chris McGinnis, Bill Peterson, Pamela Saylor, Paula Surrey, Barbara Ware, Linda White, Karen Wilson, Steve Wilson, Jerry Don

Courter, and Ellen Sue Findley.

WE KNOW HOW

"Calling all athletes!"

Coach Ryland Milner is putting out a "warrant" for all eligible football players who intend to play during the coming season.

August 30 is the date set for the first meeting, while the first grid practice will be held on the 31st. It is estimated that some 40-45 boys will report.

Intramural Manual To Be Published

A manual about the new system of intramurals has been made by Coach Don Peterson and will be ready for distribution this fall.

Dr. Peterson has been working on the revised system, which will give a picture of all campus intramurals and also of co-recreational activities. It is to relate how, when and where to play.

A large intramural score board, 4' by 6', is being built to go on the wall in the gymnasium. It will be used to keep the scores of groups and individuals in intramural activities for the coming seasons.

Work has been done in the gymnasium training room this summer. Cleaning, painting, and resanding is being done to brighten up the gymnasium.

Several rooms will be vacated when the National Guard leave their gymnasium headquarters and move into their new building. These rooms will be used for boxing and wrestling activities.

Attend Colorado School

Mr. and Mrs. Fred Schneider, class of 1938, are attending a ten weeks summer session at the University of Colorado at Boulder. Mr. Schneider, principal of the Eugene Field school in Maryville, is taking work toward his doctor's degree. Mrs. Schneider, the former Edwardena Harrison, is working toward a master's degree in education.

Children Make Trip Over City of Maryville

"READY TO FLY" . . . These children and their teachers are about to take off into space on a third-grade airplane trip at the local Maryville airport. This excursion climaxed a unit study on airplanes. Miss Hortense Crawford is the instructor of the Horace Mann class.

Children in School Take Airplane Trip Over Their Homes

Taking off into the "wild blue yonder," for a trip overlooking many of their homes, Wednesday were 16 children and 14 instructors from Horace Mann laboratory school.

This mid-morning flight was planned, with consideration of the facts concerning planes, by these pupils and their instructor, Miss Hortense Crawford.

Piloted by Bert Volker, the class rode in a Cessna 170. The chief question of the young fliers was, "What makes the plane stay in the air?"

Children making the flight were Janet Ausherman, Jeannette Bauman, Terry Blagg, James Bryan, Carol Carstenson, Paul Fields, Har-

old Goforth, Carol Lafferty, Linda Liddle, Joe Logan, H. L. Poynter, Chandis Reynolds, Carter Ward, Karen Wilson, Virginia Ann Slekmann, Eddie Bartlett.

Mrs. Opel Sell and Mrs. Henrietta Stanton, student teachers, and their daughters, Judith and Ann, respectively, also made the trip.

Other teachers flying were Mrs. Goldie Phillips, Mrs. Ilda Hower, Mrs. Kathleen Strube, Mrs. Mary Ann Foster, Mrs. Marjorie Moses, Mrs. Leona Tunks, Miss Mary Fast, Mrs. Votra Hawkins and Mrs. Irene Crawford.

Each child entertained a teacher

with a sack lunch picnic at the airport at noon.

ELMO SUPERINTENDENT TAKES POST IN IOWA

James Linderer, superintendent of the Elmo school system for the past two years, will assume the superintendency of the Van Wert, Ia., independent school system this fall.

For the past two summers, Linderer has been taking courses Northwest Missouri State College. He already holds a bachelor's degree from Tarkio College and a master's degree from Peabody College, Nashville, Tenn.
